## BEDROOM STORIES

Bedroom Stories is a collection of electroacoustic pop stories about love in all it's dimensions and forms, the naked heart wide open. It is released in three parts, each containing three songs, each produced in collaboration with other songwriters/artists. Part one is about love towards him and was released in December 2010. **Part two is about love towards her and is released in September 2011.** Part three is about love towards oneself and will be released in 2012.

## PART TWO

Her hand is holding mine, tight. I couldn't have walked any line without her. My sister, my friend. **Don't give up** honors the life force of sisterhood. It is encouragement wrapped in expansive sound. *"She can mend a broken dreamer, in her hands you are a star"*. **This World** is a requiem for a young life who left this planet too soon, an angry cry against the illusions of a world that drove her to leave. The odyssey of **Mirrors** reflects the elements of earth travelling through sounds, a tribute to motherhood and mother earth. Three homages to her.

## REVIEWS

On *Bedroom Stories* part one: *"Marie's indie-pop sound is mellow and warm. Her uniqueness is shown through her music, honest songwriting."* (Hidden mixed tape, US)  
*"Swedish singer Marie Glad captures the essence of 'Broken English', Marianne Faithful's ground breaking 1979 album: Icy cold synths and angular New Wave topped off with well-worn vocals. The time warp is perfect right down to the crisp, larger than life drum sound."* (Tuneraker, UK)
