

BEDROOM STORIES part one

by MARIE GLAD

BEDROOM STORIES

For those who expect more tales of lost love, the theme of Marie Glad's debut album *Rescue Me*, her new release *Bedroom Stories* (part one) counters the expectations with a **trilogy of songs about gained love**. *Bedroom Stories* is a collection of electroacoustic pop stories about what it takes to win love, the naked heart wide open. *Bedroom Stories* will be released in three parts, each containing three songs, each produced in collaboration with other songwriters/artists. **Part one is about love towards him** and released during December 2010. Part two about love towards her, part three about love towards oneself and both will be released during 2011.

PART ONE

It is early morning. The sunlight seeps through. The sheets are warm. Skin touches skin. Is this just a short, intense love affair? Or will it lead to something more?

Loverboy dances before your eyes in Eurodisco-style. But in the stillness **Stay** pleads the heart's cause. Does he dare to give in? Does he dare to see beauty? *"Love needs water to grow"*. In **Butterfly**, Marie featuring Duvestar, twin souls lift off the ground and sail out into the universe. *"My atoms are dancing with yours, We're building castles on clouds"*. Love is everything.

MARIE GLAD

A resonant and intriguing voice, a corde lisse dancer balancing between pop, electro, indie, jazz. A Swedish singer, songwriter but also experienced visual artist, designer, filmmaker and yoga instructor. *Bedroom Stories* is her second album. 2009 she was recognised for her debut album *Rescue Me*. *"Consistent and impressive album that contains both quiet ballads and revealing suggestive tunes"* (Musikindustrin). *"Her voice is as timeless and beautiful as Joni Mitchell's and her lyrics warm and sensitive"* (Groove).

DUVESTAR + OISIN LUNNY

Duvestar is the new constellation of Marie Glad + Oisín Lunny, in *Butterfly* it marries acoustic and orchestral instrumentation with electronics. Oisín is an Irish producer, DJ and composer for film who has previously worked with U2, Sinéad O'Connor and Gangstarr. The Duvestar sound is open but intimate, modern but timeless, deep, bright, human, and full of hope.
